About Sokol Consulting, Inc.

Sokol Consulting has been providing quality software instruction for over ten years. All of our instructors are experts in multiple graphics and publishing programs and are adept at both using and teaching the software. Our clients include Fortune 500 companies, federal and state agencies, as well as small businesses. We offer everything from basic to advanced courses, including course customization and template creation. Sokol Consulting's mission is for our students to learn to use software effectively—and to have fun while learning!

Services

On-site training

Sokol Consulting offers on-site training. This means we come to your site, at your convenience, to provide instruction. We'll bring a laptop. You'll need to provide a room and a projector. For hands-on sessions each student will need their own computer.

Remote training

Using Acrobat Connect we are now offering remote training to groups of three students or fewer. All you need is a web browser and a telephone connection.

eLearning modules

Sokol Consulting will work with your Subject Matter Experts to create simple, easily updated eLearning modules. These eLearning modules can be viewed using the Flash Player on almost all browsers. Visit our web site to view an example and learn about the process.

Template creation

Need FrameMaker or InDesign templates? We can help.
